## Watlington Neighbourhood Development Plan

## **Green Spaces Paper**

# **Our Community**

# **Our Plan**

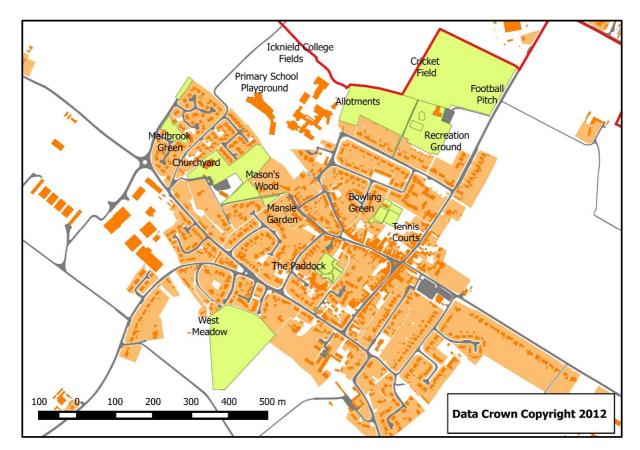

Watlington Parish Council Date: 18<sup>th</sup> July 2017

### Green Spaces and Rights of Way Watlington

### **Green Spaces**

There are a variety of green spaces and recreational facilities in Watlington. The spaces are important assets for the town, providing different opportunities for sports, recreation, relaxation, health and social wellbeing for all people of all ages. The green spaces and associated recreational facilities are very well used and contribute significantly to the character and visual amenity of the town. Some are also important for their bio-diversity and range of natural habitats.

In view of the high amenity value and levels of use of the green spaces within Watlington and its surrounds, it was concluded that they should not be put forward for development. The Parish Council will be seeking to designate relevant areas as Local Green Spaces within the Watlington Neighbourhood Development Plan (WNDP).

### **Green Spaces Map**

All maps contain Crown Copyright Data ©, Crown Copyright and Database Right [2012] and have been prepared by Watlington Parish Council under the PSMA agreement 0040083989. These maps may not be reproduced in any form without explicit approval from Ordnance Survey Limited and Watlington Parish Council. A summary of key spaces with high amenity value is detailed below:

### Spaces for recreation, relaxation and social wellbeing within or in close proximity to the main town built up area. Many of these areas are also rich in wildlife.

| Green Space      | Responsible body  | Notes   |
|------------------|-------------------|---|
| St Leonard's     | Church of England | Graveyard is operational  |
| Churchyard       |                   | Space for quiet contemplation for all ages  |
|                  |                   | Space for fetes and festivals   |
| Mansle Gardens   | Parish Council    | Area for contemplation and relaxation used by young children & carers and elderly residents |
| The Green        | Parish Council    | Used by local residents as a recreation space,  |
| Marlbrook Estate |                   | including for social gatherings   |
|                  |                   | Accessible by residents with mobility issues living   |
|                  |                   | in bungalows around the green   |
| The Paddock      | Parish Council    | Space for recreation and relaxation   |
| Community        |                   | Play area with equipment for young children   |
| Garden           |                   | Daily use by all ages   |
|                  |                   |   |
| The green at the |                   | Used by local residents as a recreation space   |
| Lilacs           |                   |   |
| Allotments       | Parish Council    | There are approximately 70 allotment holders and  |
| / motificities   |                   | all allotments are in active use  |
|                  |                   |   |
| Masons Wood*     | Freemasons        | Area for wildlife with public access  |
|                  | Icknield Masonic  |   |
|                  | Lodge             |   |
| Horse Ponds      | Private Ownership | Public footpath through the land  |
| riorse rollus    |                   | Amenity for walkers and dog walkers   |
|                  |                   | Antenty for warkers and dog warkers   |
| West Meadow      | Charitable Trust  | Trust have confirmed that they have no plans to   |
|                  |                   | apply for development. Very well used area for  |
|                  |                   | walkers and dog walkers, with trees and mature  |
|                  |                   | hedgerows.  |
|                  |                   |   |

\*the public have had free access to this small area of woodland for many years but the Masonic Lodge had concerns over access and put up boundary fencing on 01/07/17. The area is important locally for the habitat it provides and the bio-diversity it supports.

| Green Space                                      | Responsible                                   | Notes   |

Spaces for sports activities within the main town built up area

| Green Space       | Responsible | Notes   |
|-------------------|-------------|---|
|                   |             | Sept  |
| Icknield          | OCC         | Fields used for school sports and afterschool |
| Community College |             | and holiday club activities                   |
| & Primary School  |             |   |
| playing fields    |             |   |

### Spaces outside the built-up area of the town

| Green Space  | Responsible     | Notes   |
|--------------|-----------------|---|
| Willow Ponds | Copas Farms     | Very popular destination for local walks with a   |
|              |                 | permissive path and links to local rights of way. |
| Chalk Pits   | Parish Council. | Local Wildlife Site, and most is also SSSI. It is |
|              | Managed by the  | designated for its biodiversity, habitats and     |
|              | Watlington      | natural interest                                  |
|              | Environment     |   |
|              | Group           |   |

Areas to be designated as Local Green Spaces in the Watlington Neighbourhood Development Plan:

- West Meadow
- The Paddock Community Garden
- Watlington Club Bowling Green and Tennis Courts
- Allotments
- Recreation Ground and Playing Field
- Mansle Garden
- Masons Wood
- Marlbrook Green
- Marlbrook Green 2

For further information about these sites see Appendix A.

### **Rights of Way**

Pedestrian and cycle access will be a key means of promoting integration of new development sites and the existing built environment of Watlington. The WNDP has identified a number of opportunities to protect and develop the footpath and bridleway network, which are detailed below.

These will be considered over the period of the WNDP and will be promoted by the Parish Council as priorities are agreed for the use of the local share of the Community Infrastructure Levy.

### 1. PROTECTING THE EXISTING NETWORK

There are several footpaths that do not have the security of being on the definitive map. For the long-term protection of paths the Parish Council will seek legal protection for the following paths (numbers refer to the rights of way map):

- Johnson's Alley (P2)
- Pilgrims Cottage Brook St to Watcombe Road (P3)
- Extension of footpath W28 between Britwell Road and Cuxham Rd (P5)
- Brook St to Brookside (P4)
- Church Pound to St Leonard's Close (P6)
- Britwell Road to Hurdlers Green (P7)

### 2. RESTORING ACCESS TO ROUTES THAT ARE NOT CURRENTLY OPEN

A 30 foot public carriageway is shown on the Inclosure Award running in a SW direction from Watcombe Manor to the Parish boundary. This route would make an important addition to the network in Watlington as it would join/cross footpath W 13 and so public access to the route should be restored. (P8)

### 3. ALLOCATED IMPROVEMENTS INTO THE TOWN CENTRE FROM POTENTIAL DEVELOPMENT SITES

Due to the built-up nature of the Town there is limited scope for expansion of rights of way, but the following possibilities could be considered:

- If Pyrton Lane ceases to be a through route and Willow Close is not incorporated into the alternative route for the B4009, it would seem feasible to create a footpath/ cycleway from Willow Close, across Pyrton Lane along the edge of the Primary School grounds and join Chapel St. Such a route to the Town would be most useful for potential residents on housing sites B and C. (P10)
- Formalise the well-used footpath along the side of the field adjoining the allotments to join up with the Recreation Ground. Better surfacing would be required along the length of the path including the section at the Pyrton Lane end (Pyrton 6). (P11)
- If housing site A is developed it will be important to look carefully at a formal crossing point near the roundabout by the Industrial Estate.
- Pavement widths and continuity of pavements which are currently very poor in two areas, could be improved considerably by the adoption of a one-way system along Britwell Road (out of Watlington) and Cuxham Road (into Watlington). This would only be possible if the alternative route for the B4009 is built.

### 4. IMPROVING ACCESS OUTSIDE THE TOWN CENTRE

There are a number of connecting routes that could be developed to improve pedestrian access outside the town centre

- Create a path from the end of the Recreation Ground to the B 4009 / Station Road alongside the B4009 but within the boundary of site PYR1(if this is developed).
- Create a safer short route along the B 480 between footpaths W 11 and W 10 on Howe Hill
- Create a link between bridleways W 22 and W 9
- Create a safer route between footpaths W 6 and 7 to avoid the need to use Hill Road
- Create a branch link from footpath W 12 to the Icknield Way
- Create a link from Watlington Hill car park and footpath W 4
- Extend footpath W 11 at the Britwell Parish boundary to the Icknield Way
- Create a safer route between the Icknield Way and footpath W 6 along the B480 or inside the adjoining field.

### 5. IMPROVING ACCESS TO NEIGHBOURING COMMUNITIES

#### CUXHAM

There are two possible new routes , both have been used informally . The first takes a NW direction along the field edge from the end of Willow Close , turns NE at the field boundary until the Parish boundary is reached , and follows this boundary until joining the footpath from Pyrton (Pyrton 8). The second follows the track from the Parish boundary on Pyrton Lane (a continuation of Pyrton 6) until the Pyrton footpath is reached (Pyrton 8). (P13 A and B)

Local research has identified that there is sufficient space along SW side of the B480 to establishing a footpath linking Cuxham and Watlington. This clearly warrants further study and discussion with Cuxham and OCC.

### BRITWELL SALOME

The most obvious route would be from Watcombe Manor (assuming the re-opening of the route to the Parish boundary) and continuing until Shakespeare Way is reached (bridle path Britwell 12) or preferably the Britwell Hill / Britwell Road is met. (P8)

### **PYRTON**

Assuming the alternative route for the B4009 is built and is doesn't incorporate Pyrton Lane, the existing Pyrton Lane (beyond St Leonard's Close) could become a quiet road without vehicular traffic. This would result in improved conditions for horse riders, cyclists and pedestrians. There would need to be a crossing point of the 'new' section of B4009 at some point. (P15)

### 6. IMPROVEMENT TO SURFACES OF WELL USED PATHS

The worst section in this category is the 200m + of footpath W13 along the brook from the Willow Ponds. Options to improve the surface of this section should be investigated, including bringing in stone to improve the surface. Funding for this work would not be met by OCC but they would have no objection to it in principle. It may also be necessary to consider improving the surface of footpath W 12 to the south of the horse ponds if the planned cutting back of overhanging vegetation is not sufficiently effective in drying the surface of the path in winter

### 7. OTHER POSSIBLE IMPROVEMENTS

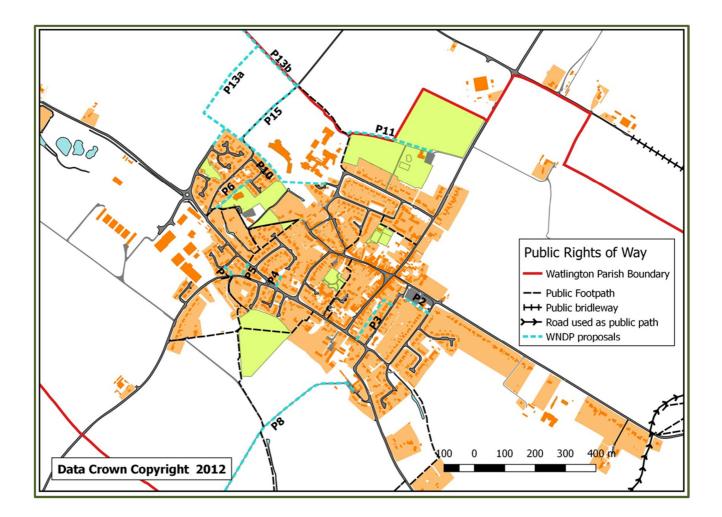

- Improved crossing point on the B480 Howe Road from footpath W12 to footpath W13b.
- There also may be the possibility of converting the old railway track to Lewknor into a cycleway
- Improve the surface of the Icknield Way between Hill Road and Station Road

### 8. ACCESS

Access for those with impaired mobility should be built into all improvements in pedestrian routes

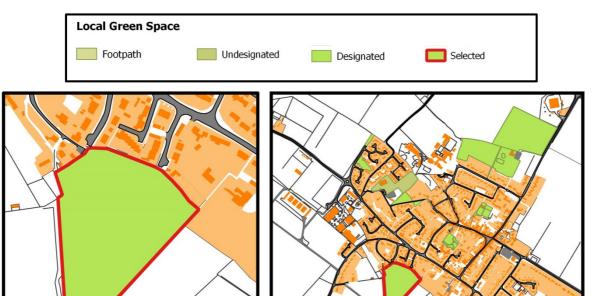

### 9. BRIDLEWAYS

- The proposed re-alignment of the B4009 will have an impact on the local bridleway network.
- Safe routes will be needed to the Icknield Way and existing bridleways in Pyrton
- Provision for a new bridleway could be made alongside the new B4009 route.
- Safe crossing points will be needed.

### Appendix A: Proposed Local Green Space designations

| Site Details   |          |   |   |
|--|----------|---|---|
| West Meadow  | SU686943 | Open meadowland - previously flood plain for now-diverted<br>stream. Crossed by footpaths leading to popular rural walks.<br>Meadow used by many for exercising dogs. Owned by the<br>Watlington Charities.   |   |
| Checklist  |          |   |   |
| Statutory designa  | tions    | Site allocations  | Planning permissions  |
| Within Watlington<br>Conservation Area   |          | This NDP recommends site for allocation as Local Green Space  | No current or previous planning applications.   |
| NPPF Criteria  |          |   |   |
| Close to the com   | munity   | Demonstrably special  | Local and not extensive   |
| About a third of the<br>perimeter of the site adjoins<br>to housing areas in the town.<br>There are two formal<br>footpaths which lead from the<br>housing into the Meadow, and<br>a third informal entrance<br>from Allnut Close. |          | This site provides a large open<br>green area that is ideal for<br>exercising dogs, and is well<br>used for that purpose. In<br>addition to this recreational<br>purpose, the meadow includes<br>the course of an intermittent<br>stream from the Willow ponds<br>into Charlgrove Brook, and has<br>the potential to be used for<br>flood protection. The stream is<br>now diverted into a culvert<br>around the field. | The area is owned by a local<br>charitable trust. It has an area<br>of 2.4ha, and is all open<br>meadow used occasionally for<br>grazing cattle by a local<br>farmer. |

| Mansle Garden SU686947  | Small informal garden and greens for people to relax. Owned by the   |  |  |
| Checklist   |  |  |  |
| Statutory designations  | Site allocations   | Planning permissions   |  |
| Within Watlington<br>Conservation Area  | This NDP recommends site for allocation as Local Green Space   | No current or previous planning applications.  |  |
| NPPF Criteria   |  |  |  |
| Close to the community  | Demonstrably special   | Local and not extensive  |  |
| This park is entirely enclosed<br>within the built-up area of<br>the town. It is accessed from<br>the end of Church lane, the<br>ancient route to the church,<br>and is bounded on the west<br>by a footpath from the end of<br>Church lane leading to the<br>church. This footpath will be<br>a significant route for at least<br>two of the three sites<br>allocated in this NDP. | This small area of parkland was<br>given to the Parish Council for<br>the benefit of residents and has<br>been made into a quiet restful<br>corner on the edge of town,<br>with benches, areas or grass<br>and wildfowers. It is named for<br>our twin town, Mansle, in<br>France. | It has an area of less than 0.1<br>ha. The aim of proposing it as<br>a Local Green Space is to<br>protect it as a natural asset for<br>future generations. |  |

| Mason's Wood  | SU685946  | Area of urban woodland, crossed   | by informal paths   |
| Checklist   | •   |   |   |
| Statutory designa   | tions   | Site allocations  | Planning permissions  |
| Within Watlington   |   | This NDP recommends site for  | No current or previous planning   |
| Conservation Area   |   | allocation as Local Green Space   | applications.   |
| NPPF Criteria   |   |   |   |
| Close to the com  | munity  | Demonstrably special  | Local and not extensive   |
| Enclosed within th<br>area of the town.<br>footpath between<br>residential areas a<br>town centre. This<br>will be a significar<br>at least two of the<br>allocated in this N | Adjacent<br>current<br>and the<br>s footpath<br>nt route for<br>e three sites | This is the only remaining area<br>of unspoilt woodland in the<br>town. It is well used by local<br>residents, especially children,<br>as a wilderness area for<br>playing, exploring, exercising<br>dogs or just admiring the wild<br>flora and bird life. This area of<br>woodland is irreplaceable<br>within the built form of the<br>town. It is close to the<br>churchyard which provides a<br>larger area of mixed open space<br>and trees, and the two taken<br>together provide a viable<br>environment for a variety of<br>wildlife. | The area has been used as an<br>unrestricted wild area for 50<br>years or more. It has an area of<br>less than 0.3 ha. The aim of<br>proposing it as a Local Green<br>Space is to protect it as a<br>natural asset for future<br>generations. |

|--|----------|---|---|--|--|
| Marlbrook  | SU684949 | Grass area with some mature trees. Land previously intended as  |   |  |  |
| Green 2  |          | part of the route for a relief road   | around Watlington.  |  |  |
| Checklist  |          |   |   |  |  |
| Statutory designations   |          | Site allocations  | Planning permissions  |  |  |
| No designation   |          | This NDP recommends site for allocation as Local Green Space  | Planned as the route for a<br>connecting road from Willow<br>Close to Pyrton Lane as part of<br>a possible by-pass.   |  |  |
| NPPF Criteria  |          |   |   |  |  |
| Close to the community   |          | Demonstrably special  | Local and not extensive   |  |  |
| On the western edge of the<br>built-up area of the town with<br>houses along its east side.<br>The western edge of the area<br>faces onto one of the<br>development sites (site B)<br>allocated in this plan and its<br>northern end connects with<br>another development site<br>(Site C). It is hoped that<br>development of sites B and C<br>will integrate into the form of<br>Marlbrook, so that the<br>combined unit becomes less<br>isolated from the rest of the<br>community. |          | This land was given to the<br>Parish council when the plan for<br>its use as part of a by-pass was<br>abandoned in the late 1980's.<br>It has since been used a green<br>space for exercising dogs and as<br>a wilderness play area by<br>children. Its value to the<br>community is its potential to<br>provide a footway or bridle way<br>linking Marlbrook and the<br>proposed development site B to<br>Pyrton Lane and then into<br>town. | The small linear covers less<br>than 0.08ha. The aim of<br>proposing it as a Local Green<br>Space is to facilitate the<br>development of pedestrian and<br>cycle routes from the new<br>developments towards the<br>schools as well as the open<br>countryside. |  |  |
