

Available Sites

This map shows the smaller sites which the owners or developers have asked to have considered as possible development sites in Watlington. All of these sites have been the subject of recent planning applications or currently have planning applications outstanding.

These sites together will contribute less than 10% of the total number of new housing sites we need to allocate, and will be included in the Neighbourhood Plan as potential windfall sites only if their planning application has not been approved by the time the NP is submitted for examination.

No sites have been selected yet. All the available sites, including these small sites, will be assessed against our agreed selection criteria.

For these small sites, only the site number is shown on the site labels
