

Chalgrove Airfield

- **The airfield is one of seven sites which are being considered by SODC for building a single new strategic housing development of 3,500 new homes between now and 2032**
- SODC is required to make provision somewhere in the district for this number of homes, over and above its own need, in order to help Oxford City's overspill
- No decisions have been made at this stage and the airfield may not be developed at all if one of the other site options is chosen. It may not even be included in the Local Plan 2032 Preferred Options
- SODC will begin a consultation on the Preferred Options at the end of this month and there will be opportunities for everyone to comment on the options being put forward. A public meeting will be held at the Watlington Club on July 5th (more details to follow)
- **The Parish Council and the Neighbourhood Plan Forum are making sure that Watlington is as up to date as possible on this situation and that the town's interests are taken into account**
