

INFRASTRUCTURE GROUP MEETING WEDNESDAY 2nd DECEMBER - Minutes

Present: Yaroslav Bogatov, Tom Bindoff, Matt Reid and Peter Richardson – Apology Tony Clarry

The meeting took the form of a “think tank” session in compiling a full categorisation of the subjects to be covered. Further studies of existing consultation work and related documents have been taking place and the Infrastructure information folder is in the process of being updated with the link information added to the NP web site.

The categories agreed at the last meeting were re-confirmed and developed with sub headings as below:

Utilities

- Electricity
- Water
- Sewage including private drainage
- Broadband and mobile phones
- Gas
- Oil

Council and Corporate Services

- SODC
- OCC
- Parish Council
- Voluntary and Charitable Organisations

Emergency Services

- Police
- Fire Brigade
- Healthcare facilities

Travel and Transport

- Public Transport
- Car usage and the M40 J6 position
- School transport
- Cycling
- Parking

Green infrastructure

- Recreation and the Sports Pavilion
- Flooding
- Facilities for leisure cyclists

It was proposed that the NP undertake a car park survey in early 2016 to produce evidence of current usage – it was noted that this survey would need to be on a 7 day basis to ensure that weekend usage is covered

The date of the next meeting was provisionally set as 8pm on Monday 18th January 2016 venue to be advised at which the categories would be assessed as to a programme of further studies needed and action taken. The category of Education to be possibly added as not discussed
