Better broadband facilities
Better broadband. Live/work units
Better internet access
Better internet access and fibre to homes to allow interactive facilities for home workers and to allow Mums to work
Better internet connection
Better transport and faster broadband
Better use of the Undercroft area. More affordable office space.
Better Wi & Mobile Connections
Better wi fi phone(mobile) reception & performance
Broadband
Broadband also wi fi in High Street
Broadband speed
Care workers and nurseries for under 5's
Communal workspace - café with wifi etc
Decent and consistent broadband with reliable service
Decent broadband to all homes
Dislike the word "must" in all these questions - too brutal
Do not understand what you mean by "facilities"
Encourage more cottage industries, market stalls, farmers market etc
Fast broadband
Fast broadband

We asked if the Plan should include more facilities to support home workers - your comments were exactly recorded as below
