

## Consultation 2

### Question V44

**If you disagreed with the Objectives listed on Page 24 - we asked for your comments and your exact responses are shown as received**

Add cycle routes for access to schools especially from Chalgrove and other surrounding villages

Add facilities for practical learning opportunities (see Q22) Healthy see Q21

Could not view pages 16 - 29 VOO so Q29 - 45 unanswered

Existing sports facility usage should be encouraged

Expand recreational space with another field - encourage football and rugby - develop all weather facility. Provide area for dog walkers that is not sports ground. Reclassify rec as playing fields and separate recreation from organised sport.

I would include a specific focus on leisure facilities to include a swimming pool, indoor gym and squash courts.

If you are going to mention specific groups eg Watlington in Bloom you should mention the Environment Group - no mention of library

Improve for older children of 12+

Maintenance of green space and sport. Expand school facilities

Most of them are outside the scope of the NP

Point 4 - no requirement for encouragement of expansion of religious groups - does not fit with an NP

Real need for indoor activities for families

Will take more than encouragement for the pre school nursery and schools to increase in line with demand it will need planning support and money

You have a great place called the Watlington Memorial Club which does not get used by residents. Cannot see any other developments for entertainment improving the town
